

Home Health

Quality Reporting Program Provider Training

Introduction to OASIS-D

Kathryn D. Roby and Charlotte Steniger
Qualidigm

August 28, 2018

Housekeeping

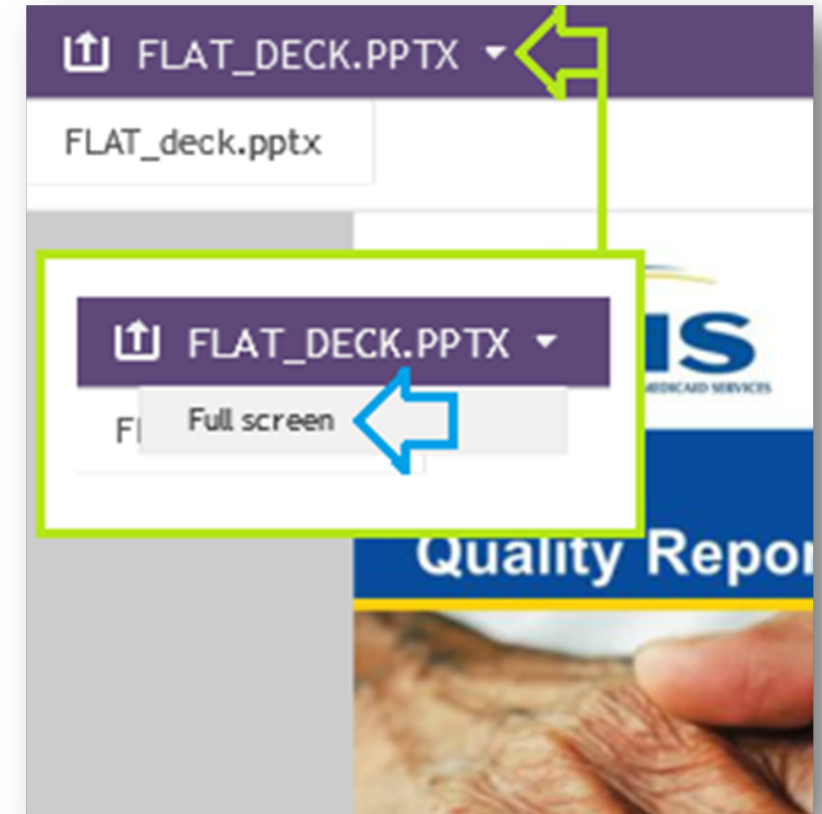

- This webinar is being recorded
- Closed captioning is enabled and will appear at the bottom of your screen
- If you have a question at any point throughout today's presentation, enter it at the bottom of the Q&A box in the lower left-hand corner of the screen. Submit by clicking the "Ask" button

How to Download Training Materials

- Training materials can be downloaded from:
 - Home Health Quality Reporting Training page:
<https://www.cms.gov/Medicare/Quality-Initiatives-Patient-Assessment-Instruments/HomeHealthQualityInits/Home-Health-Quality-Reporting-Training.html>
- The **Downloads** section is at the bottom of the Training web pages

How to Enter Full Screen Mode

- Click on the PowerPoint Presentation Title located above the presentation area
- The option for FULL SCREEN will appear
- Click on FULL SCREEN to maximize and change your view to ONLY the presentation
- Hit the ESC key on your keyboard to return to the normal view

Disclaimer

This presentation was current at the time it was published or uploaded onto the web. Medicare policy changes frequently, so links to the source documents have been provided within the document for your reference.

This presentation was prepared as a service to the public and is not intended to grant rights or impose obligations. This presentation may contain references or links to statutes, regulations, or other policy materials. The information provided is only intended to be a general summary. It is not intended to take the place of either the written law or regulations. We encourage readers to review the specific statutes, regulations, and other interpretive materials for a full and accurate statement of their contents.

Today's Presenters

**Kathryn D. Roby, M.Ed., M.S., R.N.,
CHCE, CHAP/ACHC**
Senior Consultant, Home Health Services
Qualidigm

**Charlotte Steniger, R.N., M.S.N., COS-C,
COQ-S, CHAP/ACHC**
Consultant, Home Health Services
Qualidigm

Acronyms in This Presentation

- Activities of Daily Living (ADL)
- Certification and Survey Provider Enhancement Reports (CASPER)
- Centers for Disease Control and Prevention (CDC)
- Centers for Medicare & Medicaid Services (CMS)
- Diabetes Mellitus (DM)
- Drug Regimen Review (DRR)
- Home and Community-Based Services Continuity Assessment Record and Evaluation (HCBS CARE)
- Home Health (HH)
- Home Health Agency (HHA)

Acronyms in This Presentation (cont. 1)

- Home Health Quality Reporting Program (HH QRP)
- Home Health Value-Based Purchasing (HH VBP)
- Instrumental Activities of Daily Living (IADL)
- Improving Medicare Post-Acute Care Transformation (IMPACT) Act
- Inpatient Rehabilitation Facility (IRF)
- Inpatient Rehabilitation Facility-Patient Assessment Instrument (IRF-PAI)
- Long-Term Care Hospital (LTCH)

Acronyms in This Presentation (cont. 2)

- Long-Term Care Hospital Continuity Assessment Record and Evaluation (CARE) Data Set (LCDS)
- Medicare Learning Network (MLN)
- Minimum Data Set (MDS)
- National Pressure Ulcer Advisory Panel (NPUAP)
- Outcome and Assessment Information Set (OASIS)
- Peripheral Arterial Disease (PAD)
- Peripheral Vascular Disease (PVD)
- Post-Acute Care (PAC)

Acronyms in This Presentation (cont. 3)

- Potentially Avoidable Event (PAE)
- Pressure Ulcer (PU)
- Prospective Payment System (PPS)
- Quality Improvement and Evaluation System (QIES)
- QIES Technical Support Office (QTSO)
- Quality Reporting Program (QRP)
- Registered Nurse (RN)
- Resumption of Care (ROC)
- Start of Care (SOC)
- Standardized Patient Assessment Data Elements (SPADEs)

Learning Objectives

1

Describe the Improving Medicare Post-Acute Care Transformation (IMPACT) Act of 2014 and resulting changes to Outcome and Assessment Information Set (OASIS)

2

Identify the major changes from OASIS-C2 to OASIS-D

3

Identify available resources for implementing OASIS-D

OASIS-D Training Opportunities

Training Information and Updates

Spotlight and Announcements

Overview of OASIS-D and IMPACT Act of 2014

Overview

- IMPACT Act of 2014
- Changes from OASIS-C2 to OASIS-D
 - New, revised, and removed assessment items
 - Rationale for OASIS changes

IMPACT Act of 2014

- Bipartisan bill signed into law by President Obama on October 6, 2014
- Requires post-acute care (PAC) providers to report standardized patient assessment data and quality measure data

PAC Matters

LTCH, IRF, HHA, Nursing Homes

POST-ACUTE CARE (PAC)

Section 3004 of the Affordable Care Act mandates the establishment of PAC quality reporting programs (QRP) for long-term care hospitals (LTCH), inpatient rehabilitation facilities (IRF), and hospices.

The Improving Medicare Post-Acute Care Transformation Act of 2014 mandates the establishment of QRP for skilled nursing facilities (SNF).

Section 1895 of the Social Security Act mandates the establishment of home health agencies (HHA) QRP.

PAC Settings

HHA

Skilled nursing or therapy services provided to beneficiaries who are homebound.

IRF

Intensive rehabilitation services such as physical and occupational therapy, rehabilitation nursing, speech-language pathology, prosthetic and orthotic devices provided to patients after an illness, injury, or surgery.

HOSPICE

Palliative and support services, including pain management and spiritual counseling.

LTCH

Hospital level of care such as prolonged ventilator support and ventilator weaning, wound care management, pain management, treatment for septicemia, and post-traumatic and postoperative infections provided for extended periods to patients with chronic critical illness—those who exhibit metabolic, endocrine, physiologic, and immunologic abnormalities that result in profound debilitation and often ongoing respiratory failure.

SNF

Short-term skilled nursing and rehabilitation services to individuals whose health problems are too severe or complicated for home care or assisted living.

Quality reporting in PAC settings aligns with the CMS National Quality Strategy Goals:

Making Care Safer

Patient and Family Engagement

Effective Prevention & Treatment of Chronic Diseases

Communication & Care Coordination

Best Practice of Healthy Living

Making Care Affordable

Data Sources:
1. Report to Congress Medicare Payment Policy. Medicare Payment Advisory Commission (MedPAC). Washington, D.C., MedPAC. March 2016. http://www.medpac.gov/documents/reports/mar14_entirereport.pdf#vsn=0
2. CMS. Division of Quality Systems for Assessments and Surveys (DQSAS).

Driving Forces of the IMPACT Act

Purpose:

- Improve Medicare beneficiary outcomes
- Provide access to longitudinal data to facilitate coordinated care
- Enable comparable data and quality across PAC settings
- Improve hospital discharge planning
- Research

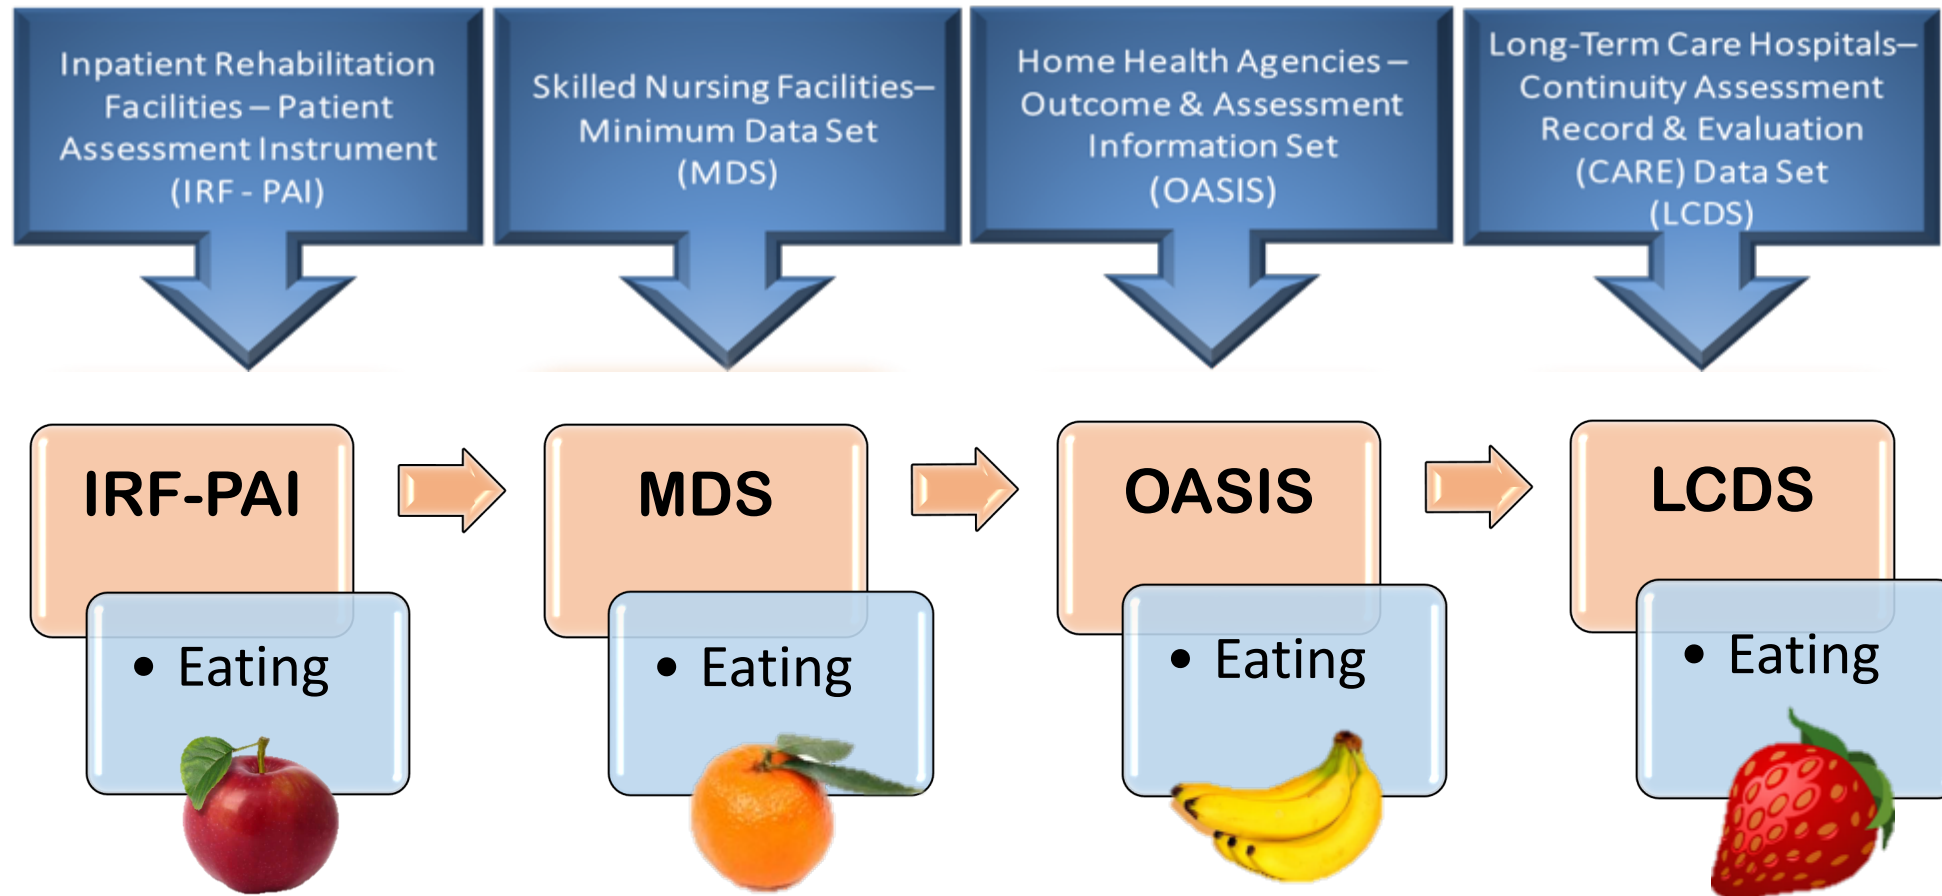

Why the attention on Post-Acute Care?

- Escalating costs associated with PAC
- Lack of data standards/interoperability across PAC
- Goal of establishing payment rates according to the individual characteristics of the patient, not the care setting

What Is Standardization?

Standardizing Function at the Item Level

What Is Standardization?

Standardizing Function at the Item Level (cont.)

Standardized Patient Assessment Data Elements (SPADEs)

- **SPADEs:**
 - Question and response options that are identical in all four PAC assessment instruments
 - Identical standards and definitions apply
- The move toward standardized assessment data elements facilitates cross-setting data collection, quality measurement, outcome comparison, and interoperable data exchange

CMS YouTube Channel

- **Overview of the IMPACT Act**
 - This video from the November 2016 HH Quality Reporting Program (QRP) Provider Training held November 16 and 17, 2016, presents an overview of the IMPACT Act of 2014

M2030, M2301, M2401

Why Is OASIS Being Changed?

IMPACT Act/ Standardization

New Standardized Items

- Section J: J1800 & J1900
- Section GG: GG0100, GG0110, GG0130 & GG0170

Cross-Setting Alignment

Alignment in content of items that support cross-setting measures

- Drug Regimen Review (DRR)
- Pressure Ulcers
- Active Diagnoses
- Height & Weight

Comprehensive Item Use Evaluation

Reduction of burden

- Quality measure changes
- Survey and certification

Updates/ Corrections

General updates/ corrections made as necessary

OASIS-D: New Items

Section J: Health Conditions (Falls)

- J1800. Any Falls Since SOC/ROC
- J1900. Number of Falls Since SOC/ROC

Section GG: Functional Abilities and Goals

- GG0100. Prior Functioning: Everyday Activities
- GG0110. Prior Device Use
- GG0130. Self-Care
- GG0170. Mobility

OASIS-D: New Items and Time Points

Section	Item	Time Points Completed
Section J: Health Conditions (Falls)	<ul style="list-style-type: none"> J1800. Any Falls Since SOC/ROC J1900. Number of Falls Since SOC/ROC 	<ul style="list-style-type: none"> Transfer Discharge from Agency – Not to an Inpatient Facility Death at home
Section GG: Functional Abilities and Goals	<ul style="list-style-type: none"> GG0100. Prior Functioning: Everyday Activities GG0110. Prior Device Use 	<ul style="list-style-type: none"> Start of care (SOC) Resumption of care (ROC)
	<ul style="list-style-type: none"> GG0130. Self-Care GG0170. Mobility 	<ul style="list-style-type: none"> SOC ROC Follow-Up Discharge from Agency – Not to an Inpatient Facility

OASIS-D: Revised Items

M1028

Active Diagnoses

M1306

Unhealed Pressure Ulcer/Injury at Stage 2 or Higher?

M1311

Current Number of Unhealed Pressure Ulcers/Injuries at Each Stage

M1322

Current Number of Stage 1 Pressure Injuries

M1324

Stage of Most Problematic Unhealed Pressure Ulcer/Injury that is Stageable

M2102

Types and Sources of Assistance

M2310

Reason for Emergent Care

Data Items Removed From OASIS

- In 2017, CMS undertook a comprehensive review of the OASIS
- **28** OASIS items identified for removal to reduce data collection burden

Why Were These Items Removed?

- OASIS items were removed if they were not used to support:
 - HH QRP measures
 - HH Prospective Payment System (PPS)
 - Survey process for Medicare certification
 - HH Value-Based Purchasing (VBP) demonstration measures
 - Critical risk-adjustment factors
 - Conditions of Participation

OASIS-D: Removed Items

Item	Item Description	SOC	ROC	Follow-Up	Transfer to an Inpatient Facility	Death at Home	Discharge from Agency
M0903	Date of Last Home Visit				X	X	X
M1011	Inpatient Diagnosis	X	X	X			
M1017	Diagnoses, Treatment Regimen Change	X	X				
M1018	Conditions Prior	X	X				
M1025	Optional Diagnoses	X	X	X			
M1034	Overall Status	X	X				
M1036	Risk Factors	X	X				

OASIS-D: Removed Items (cont. 1)

Item	Item Description	SOC	ROC	Follow-Up	Transfer to an Inpatient Facility	Death at Home	Discharge from Agency
M1210	Ability to Hear	X	X				
M1220	Understanding Verbal Content	X	X				X
M1230	Speech and Oral Expression	X	X				
M1240	Pain Assessment	X	X				
M1300	Pressure Ulcer (PU) Assessment	X	X				
M1302	Risk of Developing PUs	X	X				
M1313	Worsening in PU Status						X
M1320	Status of Most Problematic PU	X	X				X
M1350	Skin Lesion or Open Wound	X	X				

OASIS-D: Removed Items (cont. 2)

Item	Item Description	SOC	ROC	Follow-Up	Transfer to an Inpatient Facility	Death at Home	Discharge from Agency
M1410	Respiratory Treatments	X	X				
M1501	Symptoms in Heart Failure Patients				X		X
M1511	Heart Failure Follow-up				X		X
M1615	When does Urinary Incontinence occur?	X	X				X
M1750	Psychiatric Nursing Services	X	X				
M1880	Ability to Plan and Prepare Light Meals	X	X				X
M1890	Ability to Use Telephone	X	X				X

OASIS-D: Removed Items (cont. 3)

Item	Item Description	SOC	ROC	Follow-Up	Transfer to an Inpatient Facility	Death at Home	Discharge from Agency
M1900	Prior Functioning	X	X				
M2040	Prior Medication Management	X	X				
M2110	How often does the patient receive ADL or IADL assistance?	X	X				
M2250	Plan of Care Synopsis	X	X				
M2430	Reason for Hospitalization				X		

OASIS-D: Removal From Discharge Time Point Only

Item	Item Description	SOC	ROC	Follow-Up	Transfer to an Inpatient Facility	Death at Home	Discharge from Agency
M1610	Urinary Incontinence or Urinary Catheter Presence	✓	✓	✓			✗
M1322	Current Number of Stage 1 Pressure Ulcers	✓	✓	✓			✗
M1332	Current Number of Stasis Ulcers that are Observable	✓	✓	✓			✗
M2030	Management of Injectable Medications	✓	✓	✓			✗

OASIS-D: Select Item Response Removals

Item	Item Description	SOC	ROC	Follow-Up	Transfer to an Inpatient Facility	Death at Home	Discharge from Agency
M2102	Types and Sources of Assistance	6* out of 7 response options removed	6* out of 7 response options removed				3** out of 7 response options removed
M2310	Reason for Emergent Care				15*** out of 19*** response options removed		15*** out of 19*** response options removed

* M2102 row f to remain collected at SOC, ROC, and Discharge From Agency as part of the HH VBP program

** M2102 rows a, c, and d to remain collected at Discharge From Agency for survey purposes

*** M2310 responses 1, 10, OTH, UK to remain collected at Transfer to an Inpatient Facility and Discharge From Agency for survey purposes

Revised Skip Patterns

- Skip pattern changes resulting from item removals:

M1000	Inpatient Facility Discharge
M1051	Pneumococcal Vaccine
M1306	Unhealed Pressure Ulcer/Injury at Stage 2 or Higher
M1311	Current Number of Unhealed Pressure Ulcers/Injuries at Each Stage
M1340	Does This Patient Have a Surgical Wound?
M1610	Urinary Incontinence or Urinary Catheter Presence
M2001	Drug Regimen Review
M2410	Which Inpatient Facility Has the Patient Been Admitted?
M2420	Discharge Disposition

New OASIS-D Assessment Items

Section J: Health Conditions

Section J: Overview

- Describe the new assessment items in Section J: Health Conditions
 - Time points completed
 - Item intent
 - Definitions
 - Coding instructions
- Apply coding instructions to accurately code practice scenarios

Section J: New Items

J1800: Any Falls Since SOC/ROC, whichever is more recent

Time Points Completed:

- Transfer
- Discharge – not to an Inpatient Facility
- Death at Home

J1900: Number of Falls Since SOC/ROC, whichever is more recent

Time Points Completed:

- Transfer
- Discharge – not to an Inpatient Facility
- Death at Home

Section J: New Items (cont.)

J1800. Any Falls Since SOC/ROC, whichever is more recent		
Enter Code <input type="text"/>	Has the patient had any falls since SOC/ROC , whichever is more recent? 0. No → Skip J1900 1. Yes → Continue to J1900, Number of Falls Since SOC/ROC, whichever is more recent	
J1900. Number of Falls Since SOC/ROC, whichever is more recent		
CODING: 0. None 1. One 2. Two or more	↓ Enter Codes in Boxes	
	<input type="text"/>	A. No injury: No evidence of any injury is noted on physical assessment by the nurse or primary care clinician; no complaints of pain or injury by the patient; no change in the patient's behavior is noted after the fall
	<input type="text"/>	B. Injury (except major): Skin tears, abrasions, lacerations, superficial bruises, hematomas and sprains; or any fall-related injury that causes the patient to complain of pain
	<input type="text"/>	C. Major injury: Bone fractures , joint dislocations, closed head injuries with altered consciousness, subdural hematoma

J1800:
Any Falls Since SOC/ROC,
whichever is more recent

New OASIS-D Item: J1800

J1800.	Any Falls Since SOC/ROC, whichever is more recent
Enter Code <input type="checkbox"/>	Has the patient had any falls since SOC/ROC , whichever is more recent? 0. No → Skip J1900 1. Yes → Continue to J1900, Number of Falls Since SOC/ROC, whichever is more recent

J1800 Intent

- Identifies if the patient had any witnessed or unwitnessed falls since the most recent SOC/ROC

Definition of a Fall

- Unintentional change in position coming to rest on the ground, floor, or onto the next lower surface
 - E.g., a bed or chair
- Fall may be witnessed or unwitnessed, reported by the patient or an observer, or identified when a patient is found on the floor or ground
- Not a result of an overwhelming external force
 - E.g., a person pushes a patient

Definition of Intercepted Fall

- An **intercepted fall** occurs when the patient would have fallen if he or she:
 - Had not caught him/herself
 - Had not been intercepted by another person
- An **intercepted fall is considered a fall**

Challenging a Patient's Balance

- CMS understands that challenging a patient's balance and training him/her to recover from a loss of balance is an intentional therapeutic intervention and does not consider anticipated losses of balance that occur during supervised therapeutic interventions as intercepted falls

J1800 Response-Specific Instructions

- **Review:**
 - Home health clinical record
 - Incident reports
 - Other relevant clinical documentation
 - Fall logs
- **Interview** patient and/or caregiver about occurrence of falls

J1800 Coding Instructions

- **Code 0, No**, if the patient has not had any fall since the most recent SOC/ROC
- **Code 1, Yes**, if the patient has fallen since the most recent SOC/ROC
 - Code falls no matter where the fall occurred
- **A dash** is a valid response for this item. CMS expects dash use to be a rare occurrence

J1800.	Any Falls Since SOC/ROC, whichever is more recent
Enter Code <input type="checkbox"/>	Has the patient had any falls since SOC/ROC , whichever is more recent? 0. No → Skip J1900 1. Yes → Continue to J1900, Number of Falls Since SOC/ROC, whichever is more recent

J1800 Practice Coding Scenario 1

- The discharging registered nurse (RN) reviews the clinical record and interviews the patient and caregiver, Mrs. K and her daughter Susan, determining that a single fall occurred since the most recent SOC/ROC
- The fall is documented on a clinical note from an RN home visit in which Susan reported her mother slipped from her wheelchair to the floor the previous day

How would you code J1800. Any Falls Since SOC/ROC?

A. Code **0**, No

B. Code **1**, Yes

How would you code J1800. Any Falls Since SOC/ROC? (cont.)

A. Code **0**, No

B. Code **1**, Yes

J1800 Practice Coding Scenario 1 (cont.)

- **Coding:** J1800. Any Falls Since SOC/ROC, would be coded **1, Yes**
- **Rationale:** This item addresses unwitnessed as well as witnessed falls

J1800.	Any Falls Since
Enter Code	Has the patient
1	0. No →
	1. Yes →

J1800.	Any Falls Since SOC/ROC, whichever is more recent
Enter Code	Has the patient had any falls since SOC/ROC , whichever is more recent?
1	0. No → Skip J1900
	1. Yes → Continue to J1900, Number of Falls Since SOC/ROC, whichever is more recent

J1800 Practice Coding Scenario 2

- An incident report describes an event in which Mr. S appeared to slip on a wet spot on the floor during a home health aide bath visit
- He lost his balance and bumped into the wall, but was able to steady himself and remain standing

How would you code J1800. Any Falls Since SOC/ROC?

A. Code **0**, No

B. Code **1**, Yes

How would you code J1800. Any Falls Since SOC/ROC? (cont.)

A. Code 0, No

B. Code 1, Yes

J1800 Practice

Coding Scenario 2 (cont.)

- **Coding:** J1800. Any Falls Since SOC/ROC, would be coded **1, Yes**
- **Rationale:** An intercepted fall is considered a fall

J1800.	Any Falls Since SOC/ROC, whichever is more recent
Enter Code	Has the patient had any falls since SOC/ROC, whichever is more recent?
1	0. No → Skip J1900 1. Yes → Continue to J1900, Number of Falls Since SOC/ROC, whichever is more recent

J1800 Practice Coding Scenario 3

- A patient is participating in balance retraining activities during a therapy visit
- The therapist is intentionally challenging patient's balance, anticipating a loss of balance
- The patient has a loss of balance to the left due to hemiplegia, and the physical therapist provides minimal assistance to allow the patient to maintain standing

How would you code J1800. Any Falls Since SOC/ROC?

A. Code **0**, No

B. Code **1**, Yes

How would you code J1800. Any Falls Since SOC/ROC? (cont.)

A. Code **0**, No

B. Code **1**, Yes

J1800 Practice Coding Scenario 3 (cont.)

- **Coding:** J1800. Any Falls Since SOC/ROC, would be coded **0, No.**
- **Rationale:**
 - The patient's balance was intentionally being challenged by the physical therapist, so a loss of balance is anticipated
 - When assistance is provided to a patient to allow him/her to maintain standing during an anticipated loss of balance during a supervised therapeutic intervention, this is not considered a fall or intercepted fall

J1800. Any Falls Since SOC/ROC, whichever is more recent	
Enter Code	Has the patient had any falls since SOC/ROC, whichever is more recent?
<input type="text" value="0"/>	0. No →
	1. Yes →

J1800. Any Falls Since SOC/ROC, whichever is more recent	
Enter Code	Has the patient had any falls since SOC/ROC, whichever is more recent?
<input type="text" value="0"/>	0. No → Skip J1900
	1. Yes → Continue to J1900, Number of Falls Since SOC/ROC, whichever is more recent

J1900:

Number of Falls Since SOC/ROC, whichever is more recent

New OASIS-D Item: J1900

J1900. Number of Falls Since SOC/ROC, whichever is more recent		
CODING: 0. None 1. One 2. Two or more	↓ Enter Codes in Boxes	
	<input type="text"/>	A. No injury: No evidence of any injury is noted on physical assessment by the nurse or primary care clinician; no complaints of pain or injury by the patient; no change in the patient's behavior is noted after the fall
	<input type="text"/>	B. Injury (except major): Skin tears, abrasions, lacerations, superficial bruises, hematomas and sprains; or any fall-related injury that causes the patient to complain of pain
	<input type="text"/>	C. Major injury: Bone fractures , joint dislocations, closed head injuries with altered consciousness, subdural hematoma

J1900 Intent

- Identifies the number of falls a patient had since the most recent SOC/ROC, and fall-related injury

Definition: Injury Related to a Fall

Any documented injury that occurred as a result of, or was recognized within a short period of time (e.g., hours to a few days) after the fall and attributed to the fall

J1900 Response-Specific Instructions

Review

Review the home health clinical record, incident reports, and any other relevant clinical documentation, such as fall logs

Interview

Interview the patient and/or caregiver about occurrence of falls

Determine

Determine the number of falls that occurred since the most recent SOC/ROC and code the level of fall-related injury for each

Code

Code falls no matter where the fall occurred
Code each fall only once

- If the patient has multiple injuries in a single fall, code the fall for the highest level of injury

Coding Instructions: J1900A. No Injury

- **Code 0, None**, if the patient had no injurious falls since the most recent SOC/ROC
- **Code 1, One**, if the patient had one non-injurious fall since the most recent SOC/ROC
- **Code 2, Two or more**, if the patient had two or more non-injurious falls since the most recent SOC/ROC
- **A dash** is a valid response for this item. CMS expects dash use to be a rare occurrence

A. No injury:

J1900. Number of Falls Since SOC/ROC, whichever is more recent	
CODING:	↓ Enter Codes in Boxes
0. None	<input type="checkbox"/>
1. One	<input type="checkbox"/>
2. Two or more	<input type="checkbox"/>
	A. No injury: No evidence of any injury is noted on physical assessment by the nurse or primary care clinician; no complaints of pain or injury by the patient; no change in the patient's behavior is noted after the fall
	B. Injury (except major): Skin tears, abrasions, lacerations, superficial bruises, hematomas and sprains; or any fall-related injury that causes the patient to complain of pain
	C. Major injury: Bone fractures, joint dislocations, closed head injuries with altered consciousness, subdural hematoma

Definition: No Injury

- No evidence of any injury noted on assessment
- No complaints of pain or injury by the patient
- No change in the patient's behavior is noted after the fall

Coding Instructions: J1900B. Injury, Except Major

- **Code 0, None**, if the patient had no falls with injury, except major, since the most recent SOC/ROC
- **Code 1, One**, if the patient had one fall with injury, except major, since the most recent SOC/ROC
- **Code 2, Two or more**, if the patient had two or more falls with injury, except major, since the most recent SOC/ROC
- **A dash** is a valid response for this item. CMS expects dash use to be a rare occurrence

B. Injury (except major):

J1900. Number of Falls Since SOC/ROC, whichever is more recent	
CODING:	↓ Enter Codes in Boxes
0. None	<input type="checkbox"/> A. No injury: No evidence of any injury is noted on physical assessment by the nurse or primary care clinician; no complaints of pain or injury by the patient; no change in the patient's behavior is noted after the fall
1. One	<input type="checkbox"/> B. Injury (except major): Skin tears, abrasions, lacerations, superficial bruises, hematomas and sprains; or any fall-related injury that causes the patient to complain of pain
2. Two or more	<input type="checkbox"/> C. Major injury: Bone fractures, joint dislocations, closed head injuries with altered consciousness, subdural hematoma

Definition: Injury (Except Major)

- Examples include:
 - Skin tears
 - Abrasions
 - Lacerations
 - Superficial bruises
 - Hematomas
 - Sprains
 - Any fall-related injury that causes the patient to complain

Coding Instructions: J1900C. Major Injury

- **Code 0, None**, if the patient had no falls with major injury since the most recent SOC/ROC
- **Code 1, One**, if the patient had one fall with major injury since the most recent SOC/ROC
- **Code 2, Two or more**, if the patient had two or more falls with major injury since the most recent SOC/ROC
- **A dash** is a valid response for this item. CMS expects dash use to be a rare occurrence

C. Major injury:

J1900. Number of Falls Since SOC/ROC, whichever is more recent	
CODING:	↓ Enter Codes in Boxes
0. None	<input type="checkbox"/>
1. One	<input type="checkbox"/>
2. Two or more	<input type="checkbox"/>
	A. No injury: No evidence of any injury is noted on physical assessment by the nurse or primary care clinician; no complaints of pain or injury by the patient; no change in the patient's behavior is noted after the fall
	B. Injury (except major): Skin tears, abrasions, lacerations, superficial bruises, hematomas and sprains; or any fall-related injury that causes the patient to complain of pain
	C. Major injury: Bone fractures, joint dislocations, closed head injuries with altered consciousness, subdural hematoma

Definition: Major Injury

- Examples Include:
 - Bone fractures
 - Joint dislocations
 - Closed head injuries with altered consciousness
 - Subdural hematoma

J1900 Practice Coding Scenario 4

- Review of the clinical record and incident reports and patient and caregiver report identify that a single fall occurred since the most recent SOC/ROC
- The fall is documented on a clinical note from an RN home visit that describes the patient Mr. R's report of a fall that occurred between visits, in which he tripped on the dog, fell against the wall, and banged his elbow, sustaining a skin tear that he treated himself
- Documentation of the RN assessment during the home visit details the healing skin tear and no other injury or symptom identified related to the fall

How would you code J1800. Any Falls Since SOC/ROC?

A. Code **0**, No

B. Code **1**, Yes

How would you code J1800. Any Falls Since SOC/ROC? (cont.)

A. Code 0, No

B. Code 1, Yes

How would you code J1900. Number of Falls Since SOC/ROC?

J1900.	Number of Falls Since SOC/ROC, whichever is more recent	
CODING: 0. None 1. One 2. Two or more	↓ Enter Codes in Boxes	
	<input type="checkbox"/>	A. No injury: No evidence of any injury is noted on physical assessment by the nurse or primary care clinician; no complaints of pain or injury by the patient; no change in the patient's behavior is noted after the fall
	<input type="checkbox"/>	B. Injury (except major): Skin tears, abrasions, lacerations, superficial bruises, hematomas and sprains; or any fall-related injury that causes the patient to complain of pain
	<input type="checkbox"/>	C. Major injury: Bone fractures , joint dislocations, closed head injuries with altered consciousness, subdural hematoma

How would you code J1900. Number of Falls Since SOC/ROC? (cont. 1)

- A. Code J1900A = 1, J1900B = 0, J1900C = 0
- B. Code J1900A = 0, J1900B = 0, J1900C = 1
- C. Code J1900A = 0, J1900B = 1, J1900C = 0
- D. Enter a **dash** for J1900A, J1900B, and J1900C

J1900. Number of Falls Since SOC/ROC, whichever is more recent		
CODING:	↓ Enter Codes in Boxes	
0. None	<input type="text"/>	A. No injury: No evidence of any injury is noted on physical assessment by the nurse or primary care clinician; no complaints of pain or injury by the patient; no change in the patient's behavior is noted after the fall
1. One		
2. Two or more		
	<input type="text"/>	B. Injury (except major): Skin tears, abrasions, lacerations, superficial bruises, hematomas and sprains; or any fall-related injury that causes the patient to complain of pain
	<input type="text"/>	C. Major injury: Bone fractures , joint dislocations, closed head injuries with altered consciousness, subdural hematoma

How would you code J1900. Number of Falls Since SOC/ROC? (cont. 2)

A. Code J1900A = 1, J1900B = 0, J1900C = 0

B. Code J1900A = 0, J1900B = 0, J1900C = 1

✓ C. Code J1900A = 0, J1900B = 1, J1900C = 0

D. Enter a **dash** for J1900A, J1900B, and J1900C

J1900. Number of Falls Since SOC/ROC, whichever is more recent		
CODING:	↓ Enter Codes in Boxes	
0. None	<input type="text"/>	A. No injury: No evidence of any injury is noted on physical assessment by the nurse or primary care clinician; no complaints of pain or injury by the patient; no change in the patient's behavior is noted after the fall
1. One		B. Injury (except major): Skin tears, abrasions, lacerations, superficial bruises, hematomas and sprains; or any fall-related injury that causes the patient to complain of pain
2. Two or more		C. Major injury: Bone fractures , joint dislocations, closed head injuries with altered consciousness, subdural hematoma

J1900 Coding

J1900. Number of Falls Since SOC/ROC, whichever is more recent	
CODING:	↓ Enter Codes in Boxes
0. None	
1. One	
2. Two or more	
	<div>0</div> <div>A. No injury: No evidence of any injury is noted on physical assessment by the nurse or primary care clinician; no complaints of pain or injury by the patient; no change in the patient's behavior is noted after the fall</div>
	<div>1</div> <div>B. Injury (except major): Skin tears, abrasions, lacerations, superficial bruises, hematomas and sprains; or any fall-related injury that causes the patient to complain of pain</div>
	<div>0</div> <div>C. Major injury: Bone fractures, joint dislocations, closed head injuries with altered consciousness, subdural hematoma</div>

J1900 Practice

Coding Scenario 4 (cont.)

- **Coding:**
 - J1900A. No injury, would be coded **0**, **no** non-injurious falls since the most recent SOC/ROC
 - J1900B. Injury (except major), would be coded **1**, **one** injurious (except major) fall since the most recent SOC/ROC
 - J1900C. Major injury, would be coded **0**, **no** falls with major injury since the most recent SOC/ROC
- **Rationale:** Documentation of only one fall since the most recent SOC/ROC is identified. A laceration is considered an injury (except major)

Summarizing J1800 and 1900

Knowledge Check 1: J1800 and J1900 are **not** completed at which of the following time points?

- A. Transfer
- B. Discharge – not to an Inpatient Facility
- C. SOC/ROC
- D. Death at Home

Knowledge Check 1: J1800 and J1900 are **not** completed at which of the following time points? (cont.)

- A. Transfer
- B. Discharge – not to an Inpatient Facility
- ✓ C. SOC/ROC
- D. Death at Home

Knowledge Check 1: Rationale

- **J1800.** Any Falls Since SOC/ROC, and **J1900.** Number of Falls Since SOC/ROC, are completed at:
 - Transfer
 - Discharge – not to an Inpatient Facility
 - Death at Home

Knowledge Check 2: Which example below does not meet the definition of a fall?

- A. Ms. T reports losing her balance while going down the stairs but catching herself on the railing to remain standing
- B. Mrs. B's daughter reports her mother falling while walking to her mailbox
- C. Mr. W reports falling after being pushed by his roommate
- D. All of the above meet the fall definition

Knowledge Check 2: Which example below does not meet the definition of a fall? (cont.)

- A. Ms. T reports losing her balance while going down the stairs but catching herself on the railing to remain standing
- B. Mrs. B's daughter reports her mother falling while walking to her mailbox
- ✓ C. Mr. W reports falling after being pushed by his roommate
- D. All of the above meet the fall definition

Knowledge Check 2: Rationale

- Although Mr. W sustained a fall, it was a result of an overwhelming external force (his roommate pushing him)
- Ms. T experienced an intercepted fall. If she had not caught herself on the stair railing, she would have fallen
 - An intercepted fall is considered a fall

Section J: Highlights

- **J1800.** Any Falls Since SOC/ROC, and **J1900.** Number of Falls Since SOC/ROC, are completed at:
 - Transfer
 - Discharge – not to an Inpatient Facility
 - Death at Home
- An intercepted fall is considered a fall
- CMS does not consider anticipated losses of balance that occur during supervised therapeutic interventions as intercepted falls
- There are three levels of fall-related injury:
 - No Injury
 - Injury (Except Major)
 - Major Injury

Revised OASIS-D Assessment Items

Overview: Revised Items

- Identify assessment items that have been revised in OASIS-D
- Summarize the changes to each revised assessment item

Overview of OASIS-D Revisions

OASIS-D: Seven Revised Assessment Items

M1028	• Active Diagnoses
M1306	• Unhealed Pressure Ulcer/Injury at Stage 2 or Higher?
M1311	• Current Number of Unhealed Pressure Ulcers/Injuries at Each Stage
M1322	• Current Number of Stage 1 Pressure Injuries
M1324	• Stage of Most Problematic Unhealed Pressure Ulcer/Injury that is Stageable
M2102	• Types and Sources of Assistance
M2310	• Reason for Emergent Care

OASIS-D: Seven Revised Assessment Items (cont.)

- Revised assessment items may have changes in one or more of the following areas:

Time point
versions

Item text

Response
option(s)

Use of the
dash (-) as
a valid
response

Skip
patterns

OASIS-D: Guidance Manual Changes

Guidance Manual Changes for 33 Items

M0080, M0090, M0102, M1021, M1023,
M1046, M1056, M1060, M1307, M1332,
M1334, M1342, M1610, M1730, M1800,
M1810, M1820, M1830, M1840, M1845,
M1850, M1860, M1870, M1910, M2001,
M2003, M2005, M2010, M2016, M2020,
M2030, M2301, M2401

OASIS-D: Guidance Manual Changes (cont.)

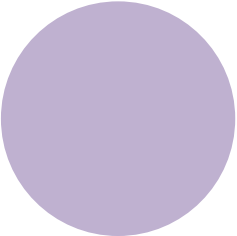

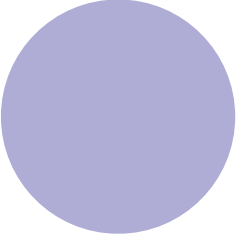

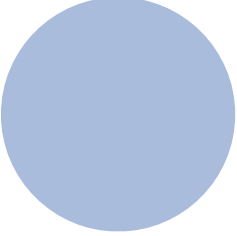

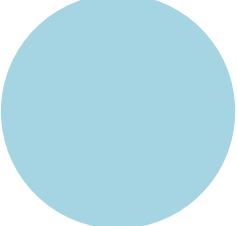

- For these 33 items, the Guidance Manual has been updated in one or more of the following sections:

OASIS-D: Description of Guidance Manual Changes

- Response-specific instructions revised to reflect one clinician expansion (collaboration allowed)
- Content associated with deleted items removed
- Skip language revised
- Alignment with new Conditions of Participation
- Alignment of language across PAC settings

OASIS-D: Description of Guidance Manual Changes (cont.)

-  References to specific Centers for Disease Control and Prevention (CDC) content replaced with a general statement to refer to CDC
-  Definitions added
-  Removed references to process quality measures no longer reported
-  Minor editorial changes

Knowledge Check 3: Revisions to OASIS-D involve which of the following?

- A. Changes to assessment items and related guidance
- B. Revisions to the Guidance Manual only
- C. Both A and B

Knowledge Check 3: Revisions to OASIS-D involve which of the following? (cont.)

A. Changes to assessment items and related guidance

B. Revisions to the Guidance Manual only

✓ C. Both A and B

Knowledge Check 3: Rationale

- Revisions to OASIS-D include both the:
 - Specific changes to seven assessment items and related guidance
 - General revisions to the Guidance Manual in the areas of item intent, time points collected, response-specific instructions, coding examples, data sources, and resources

Item Specific Changes

OASIS-D: Seven Revised Assessment Items

M1028

Active Diagnoses

M1306

Unhealed Pressure Ulcer/Injury at Stage 2 or Higher?

M1311

Current Number of Unhealed Pressure Ulcers/Injuries at Each Stage

M1322

Current Number of Stage 1 Pressure Injuries

M1324

Stage of Most Problematic Unhealed Pressure Ulcer/Injury that is Stageable

M2102

Types and Sources of Assistance

M2310

Reason for Emergent Care

Changes to M1028. Active Diagnoses

- Standardized assessment item (present on OASIS-C2)
- Response options revised to align with other PAC instruments:
 - Option 3: “None of the above” was added

OASIS-D: M1028. Active Diagnoses

Complete at
SOC/ROC

(M1028) Active Diagnoses – Comorbidities and Co-existing Conditions – Check all that apply
See OASIS Guidance Manual for a complete list of relevant ICD-10 codes.

- ☐ 1 - Peripheral Vascular Disease (PVD) or Peripheral Arterial Disease (PAD)
- ☐ 2 - Diabetes Mellitus (DM)
- ☒ 3 - None of the above

Changes to M1306. Unhealed Pressure Ulcer/Injury at Stage 2 or Higher

- Incorporated National Pressure Ulcer Advisory Panel (NPUAP) terminology updates to align with other PAC instruments
- Item text revised:
 - Replaced “excludes ... healed **Stage 2** pressure ulcers” with “excludes ... **all** healed pressure ulcers”
 - Added the words “injury/injuries”

OASIS-D: M1306. Unhealed Pressure Ulcer/Injury at Stage 2 or Higher

Complete at
SOC/ROC, Follow-
Up, and Discharge

(M1306)		Does this patient have at least one Unhealed Pressure Ulcer/Injury at Stage 2 or Higher or designated as Unstageable? (Excludes Stage 1 pressure injuries and all healed pressure ulcers/injuries)
Enter Code	0	No [Go to M1322 at SOC/ROC/FU; Go to M1324 at DC]
<input type="checkbox"/>	1	Yes

Changes to M1311. Current Number of Unhealed Pressure Ulcers/Injuries at Each Stage

- Item retained but different versions created for SOC/ROC, Follow-Up, and Discharge
- SOC/ROC and Discharge information used to calculate revised pressure ulcer measure
- Alignment with other PAC instruments
 - Incorporated NPUAP terminology updates
 - Skip pattern language and directions modified

Changes to M1311. Current Number of Unhealed Pressure Ulcer/Injuries at Each Stage (cont. 1)

- Dash “-” is a valid response for the Discharge time point only
- CMS expects dash use to be a rare occurrence
- Used to standardize the IMPACT measure

Changes to M1311. Current Number of Unhealed Pressure Ulcer/Injuries at Each Stage (cont. 2)

Item text revised

- Added ulcers/injuries where applicable
- Added the word “device” to the item title in D1.
Unstageable: non-removable dressing/**device**
- Removed “suspected ...in evolution” from F1. Unstageable: Deep tissue injury

OASIS-D: M1311. Current Number of Unhealed Pressure Ulcer/Injuries at Each Stage

(M1311) Current Number of Unhealed Pressure Ulcers/Injuries at Each Stage	
A1. Stage 2: Partial thickness loss of dermis presenting as a shallow open ulcer with a red or pink wound bed, without slough. May also present as an intact or open/ruptured blister. Number of Stage 2 pressure ulcers	
B1. Stage 3: Full thickness tissue loss. Subcutaneous fat may be visible but bone, tendon, or muscle is not exposed. Slough may be present but does not obscure the depth of tissue loss. May include undermining and tunneling. Number of Stage 3 pressure ulcers	
C1. Stage 4: Full thickness tissue loss with exposed bone, tendon, or muscle. Slough or eschar may be present on some parts of the wound bed. Often includes undermining and tunneling. Number of Stage 4 pressure ulcers	
D1. Unstageable: Non-removable dressing/device: Known but not stageable due to non-removable dressing/device Number of unstageable pressure ulcers/injuries due to non-removable dressing/device	
E1. Unstageable: Slough and/or eschar: Known but not stageable due to coverage of wound bed by slough and/or eschar Number of unstageable pressure ulcers/injuries due to coverage of wound bed by slough and/or eschar	
F1. Unstageable: Deep tissue injury Number of unstageable pressure injuries presenting as deep tissue injury	

SOC/ROC
and Follow-
Up Version

OASIS-D: M1311. Current Number of Unhealed Pressure Ulcer/Injuries at Each Stage (cont. 1)

Discharge
Version

(M1311) Current Number of Unhealed Pressure Ulcers/Injuries at Each Stage	Enter Number
A1. Stage 2: Partial thickness loss of dermis presenting as a shallow open ulcer with a red or pink wound bed, without slough. May also present as an intact or open/ruptured blister. Number of Stage 2 pressure ulcers [If 0 – Go to M1311B1, Stage 3]	<input type="checkbox"/>
A2. Number of <u>these</u> Stage 2 pressure ulcers that were present at most recent SOC/ROC – enter how many were noted at the time of most recent SOC/ROC	<input type="checkbox"/>
B1. Stage 3: Full thickness tissue loss. Subcutaneous fat may be visible but bone, tendon, or muscle is not exposed. Slough may be present but does not obscure the depth of tissue loss. May include undermining and tunneling. Number of Stage 3 pressure ulcers [If 0 – Go to M1311C1, Stage 4]	<input type="checkbox"/>
B2. Number of <u>these</u> Stage 3 pressure ulcers that were present at most recent SOC/ROC – enter how many were noted at the time of most recent SOC/ROC	<input type="checkbox"/>
C1. Stage 4: Full thickness tissue loss with exposed bone, tendon, or muscle. Slough or eschar may be present on some parts of the wound bed. Often includes undermining and tunneling. Number of Stage 4 pressure ulcers [If 0 – Go to M1311D1, Unstageable: Non-removable dressing/device]	<input type="checkbox"/>
C2. Number of <u>these</u> Stage 4 pressure ulcers that were present at most recent SOC/ROC – enter how many were noted at the time of most recent SOC/ROC	<input type="checkbox"/>

OASIS-D: M1311. Current Number of Unhealed Pressure Ulcer/Injuries at Each Stage (cont. 2)

Discharge
Version
(cont.)

(M1311) Current Number of Unhealed Pressure Ulcers/Injuries at Each Stage	Enter Number
D1. Unstageable: Non-removable dressing/device: Known but not stageable due to non-removable dressing/device Number of unstageable pressure ulcers/injuries due to non-removable dressing/device [If 0 – Go to M1311E1, Unstageable: Slough and/or eschar]	<input type="checkbox"/>
D2. Number of <u>these</u> unstageable pressure ulcers/injuries that were present at most recent SOC/ROC – enter how many were noted at the time of most recent SOC/ROC	<input type="checkbox"/>
E1. Unstageable: Slough and/or eschar: Known but not stageable due to coverage of wound bed by slough and/or eschar Number of unstageable pressure ulcers due to coverage of wound bed by slough and/or eschar [If 0 – Go to M1311F1, Unstageable: Deep tissue injury]	<input type="checkbox"/>
E2. Number of <u>these</u> unstageable pressure ulcers that were present at most recent SOC/ROC – enter how many were noted at the time of most recent SOC/ROC	<input type="checkbox"/>
F1. Unstageable: Deep tissue injury Number of unstageable pressure injuries presenting as deep tissue injury [If 0 – Go to M1324]	<input type="checkbox"/>
F2. Number of <u>these</u> unstageable pressure ulcers that were present at most recent SOC/ROC – enter how many were noted at the time of most recent SOC/ROC	<input type="checkbox"/>

Changes to M1322. Current Number of Stage 1 Pressure Injuries

- M1322 retained at SOC/ROC and Follow-Up
- Item **removed** from the Discharge time point
 - Not needed for measure calculation (burden reduction)
- Alignment with other PAC settings (IRF, LTCH, and SNF)
 - Replaced the word “ulcers” with “injuries” (NPUAP terminology)
 - Updated Stage 1 definition
- No edits to response options

OASIS-D: M1322. Current Number of Stage 1 Pressure Injuries

Complete only
at SOC/ROC
and Follow-Up

- Replaced the word “ulcers” with “injuries”
- Updated Stage 1 Definition

(M1322)	Current Number of Stage 1 Pressure Injuries: Intact skin with non-blanchable redness of a localized area usually over a bony prominence. Darkly pigmented skin may not have a visible blanching; in dark skin tones only it may appear with persistent blue or purple hues.
Enter Code <input type="checkbox"/>	<div>0</div> <div>1</div> <div>2</div> <div>3</div> <div>4 or more</div>

Changes to M1324. Stage of Most Problematic Unhealed Pressure Ulcer/Injury That Is Stageable

- Incorporated NPUAP terminology updates to align with the pressure ulcer items in the other PAC instruments
 - Added the word “injury”

OASIS-D: M1324. Stage of Most Problematic Unhealed Pressure Ulcer/Injury That Is Stageable

Complete at
SOC/ROC, Follow-
Up, and Discharge

(M1324)	
Stage of Most Problematic Unhealed Pressure Ulcer/Injury that is Stageable: (Excludes pressure ulcer/injury that cannot be staged due to a non-removable dressing/device, coverage of wound bed by slough and/or eschar, or deep tissue injury.)	
Enter Code	
<input type="checkbox"/>	1 Stage 1
	2 Stage 2
	3 Stage 3
	4 Stage 4
	NA Patient has no pressure ulcers/injuries or no stageable pressure ulcers/injuries

Changes to M2102.

Types and Sources of Assistance

Different versions of this item are available for
SOC/ROC and Discharge

Some response options were not essential and
removed to reduce burden

Changes to M2102.

Types and Sources of Assistance (SOC/ROC)

SOC/ROC Assessment

- **Response options removed:**
 - a. ADL (activities of daily living) assistance
 - b. IADL (instrumental activities of daily living) assistance
 - c. Medication administration
 - d. Medical procedures/treatments
 - e. Management of equipment
 - g. Advocacy or facilitation of patient's participation in appropriate medical care
- **Response options retained:**
 - f. Supervision and safety (lettering sequence retained)

OASIS-D: M2102. Types and Sources of Assistance

SOC/ROC
Version

(M2102)	Types and Sources of Assistance: Determine the ability and willingness of non-agency caregivers (such as family members, friends, or privately paid caregivers) to provide assistance for the following activities, if assistance is needed. Excludes all care by your agency staff.
Enter Code <input data-bbox="239 848 324 940" type="checkbox"/>	f. Supervision and safety (for example, due to cognitive impairment) 0 No assistance needed –patient is independent or does not have needs in this area 1 Non-agency caregiver(s) currently provide assistance 2 Non-agency caregiver(s) need training/ supportive services to provide assistance 3 Non-agency caregiver(s) are not likely to provide assistance OR it is unclear if they will provide assistance 4 Assistance needed, but no non-agency caregiver(s) available

Changes to M2102.

Types and Sources of Assistance (Discharge)

Discharge Assessment

- **Response options removed:**
 - b. IADL (instrumental activities of daily living) assistance
 - e. Management of equipment
 - g. Advocacy or facilitation of patient's participation in appropriate medical care
- **Response options (and lettering sequence) retained:**
 - a. ADL (activities of daily living) assistance
 - c. Medication administration
 - d. Medical procedures/treatments
 - f. Supervision and safety

OASIS-D: M2102. Types and Sources of Assistance

Discharge
Version

(M2102) Types and Sources of Assistance: Determine the ability and willingness of non-agency caregivers (such as family members, friends, or privately paid caregivers) to provide assistance for the following activities, if assistance is needed. Excludes all care by your agency staff.	
Enter Code <input type="checkbox"/>	a. ADL assistance (for example, transfer/ ambulation, bathing, dressing, toileting, eating/feeding) 0 No assistance needed –patient is independent or does not have needs in this area 1 Non-agency caregiver(s) currently provide assistance 2 Non-agency caregiver(s) need training/ supportive services to provide assistance 3 Non-agency caregiver(s) are not likely to provide assistance OR it is unclear if they will provide assistance 4 Assistance needed, but no non-agency caregiver(s) available
Enter Code <input type="checkbox"/>	c. Medication administration (for example, oral, inhaled or injectable) 0 No assistance needed –patient is independent or does not have needs in this area 1 Non-agency caregiver(s) currently provide assistance 2 Non-agency caregiver(s) need training/ supportive services to provide assistance 3 Non-agency caregiver(s) are not likely to provide assistance OR it is unclear if they will provide assistance 4 Assistance needed, but no non-agency caregiver(s) available
Enter Code <input type="checkbox"/>	d. Medical procedures/ treatments (for example, changing wound dressing, home exercise program) 0 No assistance needed –patient is independent or does not have needs in this area 1 Non-agency caregiver(s) currently provide assistance 2 Non-agency caregiver(s) need training/ supportive services to provide assistance 3 Non-agency caregiver(s) are not likely to provide assistance OR it is unclear if they will provide assistance 4 Assistance needed, but no non-agency caregiver(s) available
Enter Code <input type="checkbox"/>	f. Supervision and safety (for example, due to cognitive impairment) 0 No assistance needed –patient is independent or does not have needs in this area 1 Non-agency caregiver(s) currently provide assistance 2 Non-agency caregiver(s) need training/ supportive services to provide assistance 3 Non-agency caregiver(s) are not likely to provide assistance OR it is unclear if they will provide assistance 4 Assistance needed, but no non-agency caregiver(s) available

Changes to M2310. Reason for Emergent Care

- M2310 is completed on Transfer and Discharge
- The four response options needed for calculation of potentially avoidable event (PAE) measures were retained
- The remaining 15 of 19 response options not needed for measure calculation have been removed

Changes to M2310. Reason for Emergent Care (cont.)

Response Options Retained:

1 = Improper medication administration

10 = Hypo/hyperglycemia, diabetes out of control

19 = Other than above reasons

UK = Reason unknown

OASIS-D: M2310. Reason for Emergent Care

Complete at
Transfer and
Discharge

(M2310) Reason for Emergent Care: For what reason(s) did the patient seek and/or receive emergent care (with or without hospitalization)? **(Mark all that apply.)**

- ☐ 1 - Improper medication administration, adverse drug reactions, medication side effects, toxicity, anaphylaxis
- ☐ 10 - Hypo/Hyperglycemia, diabetes out of control
- ☐ 19 - Other than above reasons
- ☐ UK - Reason unknown

Knowledge Check 4: Which statement regarding M1028. Active Diagnoses is true?

- A. New time point versions have been created
- B. Response options have been revised to include “None of the above”
- C. Dash is **not** a valid response

Knowledge Check 4: Which statement regarding M1028. Active Diagnoses is true? (cont.)

- A. New time point versions have been created
- ✓ B. Response options have been revised to include “None of the above”
- C. Dash is **not** a valid response

Knowledge Check 4: Rationale

- M1028 is completed at SOC/ROC (no change from OASIS-C2)
- “None of the above” was added as a new response option
- Dash is a valid response; however, CMS expects dash use to be a rare occurrence

Knowledge Check 5: The same assessment version of M1311 is used for SOC/ROC, Follow-Up, and Discharge

M1311. Current Number of Unhealed Pressure Ulcers/Injuries at Each Stage

- A. True
- B. False

Knowledge Check 5: The same assessment version of M1311 is used for SOC/ROC, Follow-Up, and Discharge (cont.)

M1311. Current Number of Unhealed Pressure Ulcers/Injuries at Each Stage

A. True

✓ B. False

Knowledge Check 5: Rationale

- M1311 is retained, but different versions were created for SOC/ROC, Follow-Up, and Discharge
- SOC/ROC and Discharge Assessments are used to calculate the revised pressure ulcer measure

Knowledge Check 6: Select the best response regarding M2102. Types and Sources of Assistance

- A. Response options have been removed to reduce burden
- B. New time point versions created for SOC/ROC and Discharge
- C. Retained lettering sequence for response option(s)
- D. All of the above

Knowledge Check 6: Select the best response regarding M2102. Types and Sources of Assistance (cont.)

- A. Response options have been removed to reduce burden
- B. New time point versions created for SOC/ROC and Discharge
- C. Retained lettering sequence for response option(s)
- ✓ D. All of the above

Knowledge Check 6: Rationale

- Response options have been removed to reduce burden
- New versions created for SOC/ROC and Discharge time points
 - SOC/ROC version has row “f” only
 - Discharge version has rows “a,” “c,” “d,” and “f”
- M2102 lettering sequence was retained for remaining rows

Additional Guidance Clarifications

Expansion of the One Clinician Convention

- Guidance related to the one clinician convention was modified as of January 1, 2018
 - While only the assessing clinician is responsible for accurately completing and signing a comprehensive assessment, s/he may collaborate to collect data for all OASIS items, if agency policy allows

Expansion of the One Clinician Convention (cont. 1)

- Modifications in home care guidance related to the one clinician convention were made:
 - Based on feedback from home health stakeholders
 - To better align with assessment practices in other PAC settings
- Any exception to this general convention concerning collaboration is identified in item-specific guidance

Expansion of the One Clinician Convention (cont. 2)

- Additional information:
 - OASIS-D Guidance Manual, Chapter 1
 - CMS OASIS Q&A, August 2017 – “Expansion of the One Clinician Convention”
 - <https://www.cms.gov/Medicare/Quality-Initiatives-Patient-Assessment-Instruments/HomeHealthQualityInits/Downloads/Expansion-of-the-Home-Health-One-Clinician-Convention-August-2017.pdf>

Drug Regimen Review

- There are no DRR item changes in 2019
- The DRR items were first introduced to home health in 2010 and revised January 1, 2017
 - These items are being implemented in IRF, LTCH, and SNF during 2018
- Changes to the DRR items for home health in 2019 are limited to guidance refinement to promote cross-setting alignment

Knowledge Check 7: Select the best response regarding the One Clinician Convention

- A. The Comprehensive Assessment, which includes OASIS, remains the responsibility of one clinician
- B. The assessing clinician may elicit feedback from other agency staff in order to complete the OASIS
- C. Both A and B

Knowledge Check 7: Select the best response regarding the One Clinician Convention (cont.)

- A. The Comprehensive Assessment, which includes OASIS, remains the responsibility of one clinician
- B. The assessing clinician may elicit feedback from other agency staff in order to complete the OASIS

✓ C. Both A and B

Knowledge Check 7: Rationale

- The assessing clinician is responsible for accurately completing and signing a comprehensive assessment
- However, s/he may collaborate to collect data for all OASIS items, if agency policy allows
 - Any exception to this general convention concerning collaboration is identified in item-specific guidance

OASIS-D Revised Assessment Items: Highlights

- Revisions to OASIS-D involve either:
 - Changes to the assessment item and related guidance
 - Revisions to the Guidance Manual only
- Some response options have been removed to reduce provider burden
- Different time point versions created for some items

OASIS-D Revised Assessment Items: Highlights (cont.)

- Incorporated NPUAP terminology updates
- Revised language to align with other PAC settings
- Consult the OASIS-D Guidance Manual for specific direction

Summary and Resources

Overview: Summary and Resources

- Identify resources available to guide utilization of OASIS-D

HH QRP Website

OASIS-D Item Set and Guidance Manual

OASIS Educational Coordinators

- Each State has a designated OASIS Educational Coordinator with the responsibility to ensure that all home care providers have access to:

Training in the OASIS
data set
administration for
assessing patients

Training and technical
support in integrating
the OASIS items in
the agency's record-
keeping system

Technical support in
answering questions
on the clinical aspects
of OASIS

Find your OASIS Education Coordinator:
