Chapter	Section	Page	Change
3	C0100	C-2	<ul style="list-style-type: none"> There is one exception to completing the Staff Assessment for Mental Status items (C0700-C1000) in place of the resident interview. This exception is specific to a stand-alone, unscheduled PPS assessment only and is discussed on page 2-60. For this type of assessment only, the resident interview may be conducted up to two calendar days after the ARD. When coding a stand-alone Change of Therapy OMRA (COT), a stand-alone End of Therapy OMRA (EOT), or a stand-alone Start of Therapy OMRA (SOT), the interview items may be coded using the responses provided by the resident on a previous assessment only if the DATE of the interview responses from the previous assessment (as documented in item Z0400) were obtained no more than 14 days prior to the DATE of completion for the interview items on the unscheduled assessment (as documented in item Z0400) for which those responses will be used.
3	C0100	C-2	<ul style="list-style-type: none"> Because a PDPM cognitive level is utilized in the speech language pathology (SLP) payment component of PDPM, only in the case of PPS assessments, staff may complete the Staff Assessment for Mental Status for an interviewable resident when the resident is unexpectedly discharged from a Part A stay prior to the completion of the BIMS. In this case, the assessor should enter 0, No in C0100: Should Brief Interview for Mental Status Be Conducted? and proceed to the Staff Assessment for Mental Status.
3	C0500	C-16	<ul style="list-style-type: none"> To be considered a completed interview, the resident had to attempt and provide relevant answers to at least four of the questions included in C0200-C0400. To be relevant, a response only has to be related to the question (logical); it does not have to be correct. See general coding tips on page C-4below for residents who choose not to participate at all.
