Errata V2.30.1 for OASIS Data Submission Specifications V2.30.0

Errata History

Date	Changes Made
07/17/2018	Issues 01-03 were added.

Issues Added: 07/17/2018

Issue ID	Problem	Resolution	Status
01	Item M1028_ACTV_DIAG_NOA was introduced into the data specifications. However, there was no edit present to enforce its usage as a None of the Above item.	Edit -5670 will be added and read as follows: a) If M1028_ACTV_DIAG_NOA = [0], then at least one of M1028_ACTV_DIAG_PVD_PAD and M1028_ACTV_DIAG_DM must equal [1]. b) If M1028_ACTV_DIAG_NOA = [1], then M1028_ACTV_DIAG_PVD_PAD and M1028_ACTV_DIAG_DM must equal [0]. c) If M1028_ACTV_DIAG_NOA = [-], then at least one of M1028_ACTV_DIAG_PVD_PAD and M1028_ACTV_DIAG_DM must equal [-] and the other item must equal [0,-]. This edit will be a FATAL edit.	This change will be made in the next version of the OASIS Data Submission Specs.
02	Item M1860_CRNT_AMBLTN was inadvertently removed from the follow-up assessments (RFAs 04 and 05).	Item M1860_CRNT_AMBLTN will be restored to RFAs 04 and 05 in the itm_mstr table of the data specifications database. The data spec report for ADL/IADLs will be updated to show that M1860_CRNT_AMBLTN is present on those RFAs.	This change will be made in the next version of the OASIS Data Submission Specs.

Issue ID	Problem	Resolution	Status
03	Edits -5030, -5230, and -5240 applied to items M1021, M1023 and M1025 in OASIS-C2. The M1025 items have been deleted in OASIS-D; therefore, the mappings of these edits to the M1025 items were removed in the specifications. However, since the edits themselves refer to Columns 3 and 4 - which are the M1025 items – the edits themselves should be removed from the data specifications.	Edits -5030, -5230, and -5240 will be deleted from the data specifications database. The data spec report for Patient History and Diagnoses will show that these edits were deleted for items M1021 and M1023.	This change will be made in the next version of the OASIS Data Submission Specs.
