

GG0130B. Oral Hygiene

B. Oral hygiene: The ability to use suitable items to clean teeth. Dentures (if applicable): The ability to insert and remove dentures into and from the mouth, and manage denture soaking and rinsing with use of equipment.

Assessment Timepoints

SOC/ROC:

- SOC/ROC performance.
- Discharge goal.

Recertification:

- Follow-up performance.

Discharge:

- Discharge performance.

Oral Hygiene Inclusions and Exclusions for Coding

Included:

- Cleaning of teeth, dentures, (and gums if edentulous).
- Management of items and equipment used to brush teeth and gums and clean/soak dentures.
- Insertion and removal of dentures.

Excluded:

- Walking to/from activity location.

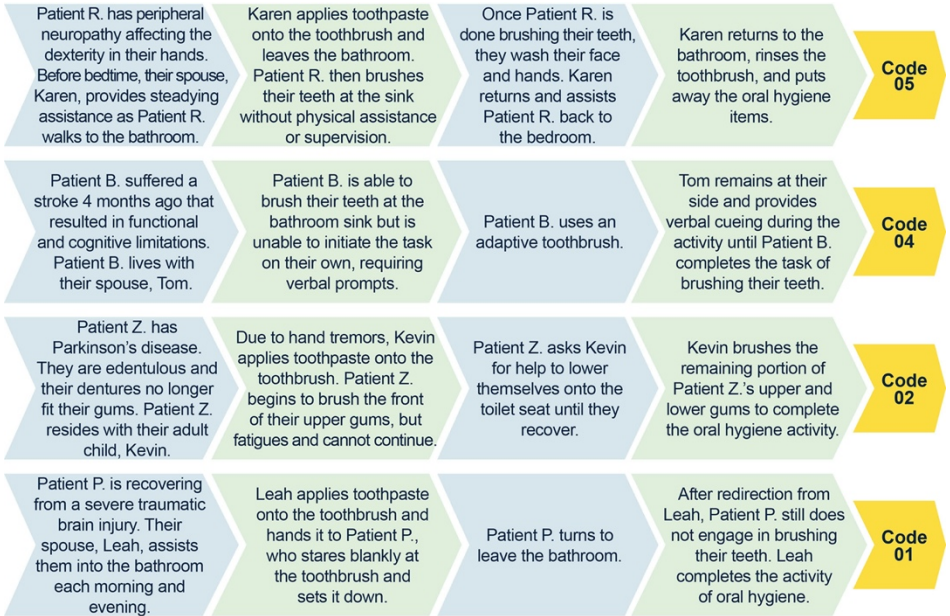

Coding Tips

Oral hygiene identifies the patient's ability to clean teeth using suitable items. It includes the patient's ability to insert/remove dentures and to manage the soaking and rinsing of dentures with the use of equipment, if applicable.

Activity Performance Codes and Examples

06 – Independent	03 – Partial/moderate assistance
05 – Setup or clean-up assistance	02 – Substantial/maximal assistance
04 – Supervision or touching assistance	01 – Dependent

Each series of arrows below describes an oral hygiene scenario. The green arrows in the second and fourth columns identify key elements of each scenario that inform the coding of **GG0130B. Oral hygiene**.

Additional Clinical Considerations

- The activity of oral hygiene may be completed with or without the use of assistive device(s).
- If the patient is edentulous (without teeth), code oral hygiene based on the type and amount of assistance needed from a helper to clean the patient's gums.
